Invention Which Photographs Objects Miles Distant.

Henniker Heaton, M. P., England's postal reformer, has just returned from Rome, whither he accompanied Marconi. He told a reporter of the latest scientific wonder—the taking of photographs at a distance of from twenty to twenty-five miles.

"I visited one of Marconi's radiograph stations, three miles from Rome," he said, "and was shown there perfect photographs of a large size taken by electricians and scientists from that station of views in the mountains twenty-five miles away.

"The photographs were clear, bringing out in sharp definition the outlines of houses and the figures of men.

"One of the operators told me that in a short time they hope to be able to take photographs of objects and places 200 miles distant and enable you to see the person you are telegraphing to at that range."

Persons desiring to go West with view of locating would do well to write to Mr. Charles H. Donnohue, formerly of this country, who has listed lands for sale or rent, and also city property. Write him at Guthrie, Oklahoma. The Advocate has a personal acquaintance with Mr. Donnohue and know him to be reliable and responsible.

LETTER NO. XIV.

A MORNING RIDE FROM NAZARETH TO ENGANIM.

We slept last night in camp on the ancient threshing-floor of Nazareth in the midst of the city. There were fifty white tents pitched in double rows about a hollow square, one side of which was closed by a dining tent with tables long enough to accommodate 131 tourists. Our neat and comfortable tents were lined with Oriental fabrics of red and white, and furnished with iron bedsteads, tables, chairs, bowls, water pitchers, candles, etc., and on the center-poles were hooks for clothing.

Attached to our camp were 194 horses, 158 mules, 38 donkeys, 90 muleteers, 34 waiters and an illustrious body of dragoonians and guides, who highly appreciated the splendor and dignity of their position. Some of them so far shared their glory with their horses, as to paint their tails and manes in brilliant colors for the occasion. Over these flaming steeds they flourished harmless horse-pistols and long swords.

Upon the pious sleep of 131 weary pilgrims, an aggravated bedlam broke loose in the darkness of the early morning, that brought every sleeper to his feet with sleepless agility. The educated camp mule, equipped with bells of various sorts and sizes, chains and indescribable devices for noise and discord, supported by an orchestra of Arabs similarly furnished, trotted, kicked, curvetted, bucked and gyrated about each tent, making several rounds of the entire camp. The second round was superfluous. Those of us who were not laughing, were engaged in silent weeping. In five minutes I was dressed, toiletied, and had my luggage packed ready for the donkeys, and went out in the light of the camp torch to watch the tents fall away from belated brethren and sisters who could not find their clothes. When tents began to totter about the tardy brethren the threshing floor resounded with entreaties and violent protests directed at the stalwart arab tent-strikers; but they in their ignorance of American language and manners, supposed they were being urged to hurry up their work. Before six o'clock tents and baggage had vanished on the back of mules and donkeys toward Enganim, twenty miles away. Tourists were in the saddle ascending the charming slopes of the green Nazareth basin through verdant fields, blossoming orchards and fragrant gardens. At the summit of the chalk-ridge of the encircling mountains, I turned and paused to look once more upon dear old Nazareth and refresh my soul with the precious memories of the Man of Galilee. Near by on my right rose the frowning cliff of Precipitation.

The soft radiance of the early dawn transfigured the rocky peaks of the fifteen hills that enclose the flowery valley, and glorified the white houses and emerald setting of the sacred city. The spell of the Christ thrilled me again. The tender and sacred emotions that transported my vibrant soul may not be written here. The gentle hand of my God will bring me again to these holy hills to renew this inspiration that will make glad all my days.

In silent joy I rode down the slippery rocks of the precipitous mountain to the fertile plain of Esdras, nearly 1,000 feet below. Ride with me eight miles south

THE OLD RELIABLE

through dappled fields of flowers and grain, to the spot where a Syrian is scratching the rich soil with the same sort of plow used here 4,000 years ago, and I will show you the martial procession of the ages. Here, midway between Nazareth and Enganim, ten miles from each, you stand on the great cat battlefield of earth. No other field has felt the tread of so many world conquerors, or furnished innumeration for such countless myriads of warriors. Four thousand years ago Chedorlaomer, with allied Kings of the Euphrates valley, led his rapacious hosts to and fro across these fields. Returning from his last campaign he happened to carry off a nephew of Abraham as prisoner. This called the old Hebrew from the quiet of his peaceful tents at Hebron. With his little army he dashed across these fields, and in the darkness of the night rushed like a cyclone upon the myriads of four hostile kings, and pursued the panic-stricken armies beyond Damascus. In this conflict the "father of the faithful" showed all the celerity, valor and military genius of the Boer. A few centuries later (1,600 B. C.) the Alexander of Egypt, Thotmes III, won a bloody victory and gained the empire of Asia on this very spot. Joshua, with his six hundred thousand warriors, fought over this plain.

That detached mountain at your left, 1,843 feet high, is the famous Tabor. It is 54 miles east by south of Nazareth, 13 west by south of the sea of Galilee, and 12 north of Gilboa. 200 years after Joshua, Barak waited on Tabor with 10,000 men, with the illustrious woman, Deborah, by his side, for reinforcements of tempest and hail, to attack the innumerable host of Sisera whose iron chariots were more terrible, than our rapid-fire cannon. In later years the "archangel of war," Napoleon, stood on that same mountain and watched for hours a little squad of French infantry beat back the furious assaults of 25,000 Moslem horsemen, until he signaled the 600 French cavalry, concealed behind Tabor, to complete the ruin of the Saracenic army.

A generation later than Barak this plain swarmed with a hostile army of hundreds of thousands from the east. That shining pool three miles southeast, is where Gideon's 300 "slapped with their hands" the night of the panic.

Here the last good king of Judah, Josiah, fell in battle against Pharaoh Necho of Egypt. But yonder is the city of Nain in front of us, and there is the old path from the tombs in the hill to the gates of the city, where Jesus raised the widow's son; and just to our right is Shunem, hedged in by lofty cactus and environed with rich gardens and orchards. Here lived the "great woman," whose dead boy Blishe brought back to life. Here David found Abishag to drive the chill of age from his

stiffening frame; and his son Solomon tried in vain to win away the heart of a fair maid of Shunem, and praises her fidelity to her rustic lover in "The Song of Solomon," found in your Bible.

Along the path of the Savior's ministry we pass by ancient Jezreel with the ruins of the palace and pool of Jezebel and Ahab, and lodge at Enganim. Here, I think, messengers met Jesus with the last message of John the Baptist, and the penitent woman anointed and kissed the feet of Jesus, in the house of Simon the Pharisee.

Court Afraid He Would be Turned Loose If Returned to Jackson.

The case against Curtis Jett took an unexpected turn last week when Attorney John M. Stevenson filed a motion before Circuit Judge Benton to dismiss his own motion for a writ of habeas corpus. The court overruled the motion and Jett under this ruling will have to remain in jail at Winchester till further action either by the Breathitt Grand Jury or the Circuit Court of Clark in the habeas corpus proceedings which are to be tried June 7. If Benton had granted the motion dismissing the habeas corpus motion, Jett then could have demanded an examining trial. In this case it is believed that witnesses from Breathitt could not have been gotten and the court would have to dismiss Jett.

Judge Benton in overruling the motion stated that to return Jett to Breathitt would, in his judgment, have been equivalent to turning him loose, on account of the peculiar conditions that obtain in Jackson.

Judge Benton will hear witnesses as to the facts of the killing June 7, and if he decides still to hold Jett, he will be kept in the Winchester jail pending the action of the Breathitt county grand jury.

Curing Tobacco.

A new method for assisting the cure of tobacco in the barns has been devised by G. F. Hillman, a Massachusetts man, who has organized a stock company with \$100,000 capital to place the cures on the market. It consists of a furnace and a gasoline engine on a truck, which is placed close to the curing barn, and hot air is forced into the barn through a pipe by means of a blower. The pipe may be extended into sections if desired, or the curer can be moved from one side of the building to another. The whole object is to force the warm air into the curing shed, so as to drive out the moist air within, and hasten the curing of the leaf.

Cumulative Science.

(Cleveland Plain Dealer).

"My dear, here is a very interesting piece of information. It says that a brick chimney 115 feet high can sway ten inches in the wind without endangering its safety."

"Of what interest is that? Are you going to build a chimney?"

"Why, no, my dear. It's the interesting character of the item that attracts me. You see what it leads to?"

"To the asylum for the insane, I suppose."

No, my dear; not at all. But if a chimney 115 high safely sways ten inches, one twice as high can get to one hundred inches. Then one twelve times as high can sway ten feet, and one 120 times as high can wobble 100 feet; and one 1,200 times as high can swing 1,000 feet, and—there, she's gone! You can't interest that woman in anything that's really scientific."

IMPORTANT LEGISLATION.

Let Every Citizen Read.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

1. In an indictment for a violation of any provision of the act approved March 10th, 1894, entitled "An act whereby the sense of the people of any county, city, town, district or precinct may be taken as to whether spirituous, vinous or malt liquors shall be sold, bartered, or loaned therein," or for a violation of any act amendatory thereof, it shall not be necessary to allege that a vote was taken or an election held, or any other step relative thereto; but it may be simply stated that the act or acts charged were committed in a territory where the said act was in force; and in said indictment it shall be sufficient to designate said act as the local option law.

2. It shall be unlawful for any person to sell, lend, give, procure for, or furnish to another, any spirituous, vinous or malt liquors, or to have in his possession spirituous, vinous or malt liquors, for the purpose of selling them in any territory where said act is in force, and any person so offending shall be fined not less than fifty nor more than one hundred dollars, and imprisoned not less than ten nor more than fifty days.

The possession of a United States special tax stamp (commonly called United States license) for carrying on the business of a retail dealer in spirituous, vinous or malt liquors, or the having of such tax stamp or license stuck up at the place of business in such territory shall be prima facie evidence of guilt under this section.

3. On the second or any subsequent conviction for a violation of said act, or any of its amendments, the court shall require the defendant to execute bond in the sum of two hundred dollars to be of good behavior for the period of twelve months.

The court may, in its discretion, increase the amount of the bond, and if the bond is not given the defendant shall be committed to the county jail for a period not exceeding ninety days, to be fixed by the court.

4. All the shipments of spirituous, vinous or malt liquors to be paid for on delivery, commonly called "C. O. D. shipments," into any county, city, town, district or precinct where said act is in force shall be unlawful and shall be deemed sales of such liquors at the place where the money is paid or the goods delivered; the carrier and his agents selling or delivering such goods shall be liable jointly with the vendor thereof.

5. Section four of said act is stricken out, and in lieu thereof the following is inserted:

"After the entry of the certificate of the canvassing board as above provided for, in the order-book of the county court, if the vote was given against the sale, barter, or loan of spirituous vinous or malt liquors in the said county, city, town, district or precinct, as the case may be, to any person, except as hereinafter provided; and any person who shall sell, barter or loan, directly or indirectly, any such liquors in said county, city, town, district or precinct shall, upon conviction, be fined not less than sixty nor more than one hundred dollars, or be confined in the county jail for not less than ten nor more than forty days, or both so fined and imprisoned, in the discretion of the

court or jury, for each offense; and any person who knowingly furnishes or rents a house, room, wagon, or any conveyance or thing, in which spirituous, vinous or malt liquors are sold, bartered or loaned, in violation of this act, shall, upon conviction thereof, be fined not less than sixty nor more than one hundred dollars, and the house, wagon, vehicle, land or other thing in which the liquors were sold, bartered or loaned shall be liable for all fines adjudged against the person selling, bartering or loaning the same."

Approved March 11, 1902.

AT IT.

There is a hot old time in Louisville, with the A. W. Young, Chairman of the State Central Committee, on the one side and John Vreeland, of Louisville politics, on the other. They are pulling wool now and will feel very much better when all is over.

MOVED TO DO SOMETHING.

We are pleased that something has stirred the Circuit Judge of Breathitt county and other officials to at least appear to have some desire to execute the laws. To us it appears that the same indifference would have continued (as in the past) had not the officials in Clark county, including the Circuit Judge, taken hold of the Jett matter like MEN.

NOT LOVELY.

In the Republican camp there is much restlessness. It is concerning the grip of trusts on the administration and their domination in commercial interests. The trouble has been clearly diagnosed but the remedy has not yet received the unanimous approval of the party.

Many politicians favor a remedy that would check the power of trusts, while the administration defenders want a catnip tea kind administered homoeopathically, while others would go after the trouble more heroically with a big dose of calomel, followed by a dose of salts.

There are many politicians in Washington at present, and the so-called "Iowa idea" is discussed by them with much interest. The "Iowa idea" is that the way to curb some of the trusts is to remove the tariff schedules that shelter them. The President and the standpatters hold that war on trusts must not include any changes of the tariff. The difference is radical. Hence the interest in the coming Iowa convention.

NAME YOUR CANDIDATE.

"There are now many persons discussed for the Democratic Presidential nomination. Richard Olney, Alton B. Parker, David B. Hill, Arthur P. Gorman, Grover Cleveland, Senator William L. Stone, of Missouri; Tom L. Johnson, of Ohio; Judson Harmon, of Ohio; Adlai E. Stevenson, of Illinois; Ben T. Cable, of Illinois; Representative Williams, of Illinois; Gov. Garvin, of Rhode Island; William Jennings Bryan, of Nebraska; and William Randolph Hearst. From this list you can select a gold Democrat, a silver Democrat, a single-taxer, a jurist, a politician, an old man, a young man, an easterner or a westerner. You can pick a short, fat man or a long, thin man. You can have a garrulous man or a reticent one. You can have a jolly man or the sad man. You can find a rich man or a poor man. You can find some who cannot be either nominated or elected. You can find some who can be nominated but not elected.

"Who is the ideal of the list? Who is just old enough and not too old, young enough and not too young, rich enough to wage a great campaign, Jeffersonian enough to satisfy the most exacting Democrat, brilliant and resourceful enough to pit against Hanna and his crew, generous and philanthropic enough to relieve distress and the results of disaster, broad enough to appeal to honest wealth as a true conservator, progressive enough to encourage trades unionism and be regarded as its friend? Who is the man who polled the greatest vote ever cast for any candidate of any party in New York, the man who taught Roosevelt and the North their duty to the South on the negro question, the man who fought for the ticket in 1896 and 1900 as no other person not on the ticket fought for it, who in brief, is the humanitarian, the American, the patriot?"

"Without disparagement to any one else on the list, I can truthfully say there is but one man who can answer this description. I need not name him. His name will suggest itself to every Democrat in the country."

We can do better, for in this list we see more than one that would fit the requirement, and outside this list there are many who could win before the people and who would make a President of the people, free from section or party bias. The one man of the list given is the last named, William Randolph Hearst.

Surely the Post-office Department scandals are enough without the uncollecting of a War Department scandal that promises to involve the militia departments of nearly every State in the Union. With scandals in Cuba, Porto Rico, the Philippines, Alaska, and "nearly every State in the Union," it would seem that the Roosevelt administration will be hard put to assign satisfactory causes why it should be continued in power for another four years.—Louisville Times.

On first page we give an enactment by the last Legislature which deserves careful consideration by every citizen. We presume the Circuit Judges in their respective districts have called attention of grand juries to this law, but more publicity is needed. The law speaks for itself. Read it: Its execution may be worth more to you than farms, live stock, houses, or bank stock.

I'LL BE GOOD.

Speaking of the way he is going to act, John C. Wood, editor of the Gazette, says: "We heartily pledged our earnest support to Siler and all others whose names may appear under the Republican device." "And all others," no exceptions, all, sweeping sure. He will be good.

Miss the date and you will never do so well. Stop work for a few hours and come in Thursday, Friday or Saturday.

Efforts Appreciated.

Everybody knows it is almost impossible to get shoes, these days, made from leather tanned after the old fashioned way. Yet there are some good shoes. We hunted the world over—we found every day shoes and Sunday shoes, in all styles for men and boys, plain calf, box calf, velour calf, kids, patent kids, patent colts, patent calf, high top, regular top, low cuts, that are still being made out of honest material. We thought it best to handle such goods at a small margin of profit rather than those with larger profit and less quality. We are happy to know our efforts have been appreciated. Our shoe department has more than doubled. We thank you, and shall still keep the efforts on foot. Guthrie Clothing Co's is the place for the best and latest in footwear for man or boy.

Mt. Sterling Water, Light and Ice Company.

The stock-holders of this company, Messrs. E. H. Jones, Henry Lees, J. B. Price, T. F. Ryan, A. A. Holbrook and T. B. Reynolds, of Wilkesbarre, Penn., met here on Tuesday of last week, went over the books of the General Manager, Mr. G. W. Baird, and elected officers for the year as follows: E. W. Jones, President; T. J. Bigstaff, Vice-President; G. W. Baird, Gen'l Manager and Treasurer.

The stockholders are pleased with their investment and with Mr. Baird's management, which was shown by his re-election as well as kind and appreciative expressions.

Our people are showing their need of the plant by contracting for water. The water is clear and free of impurities and adapted for all purposes. Gas is better, not yet perfect, and is meeting with a hearty appreciation. The electric light plant is doing a good business and at this stage we here of very little complaint concerning the service. And the ice plant production is extra good and the management of the plant is doing his best to please the people with water, light, ice, and fuel and power gas. It would be enterprise and a paying investment to add electric power, and so soon as the company is convinced of a willingness of our people to use a day power, it will be added.

Kentucky's Interests.

Commercial Convention of Kentucky meets in Louisville 2, 3 and 4 of June, 1903. Special rates over the railroads and at the hotels have been arranged. Men informed on Kentucky's resources and needs have been assigned to subjects they have given years of study to, and it is well for as many of our people to go as can possibly get away. Such meetings arouse due enthusiasm to the attendees and they in turn return to their homes and impart same to their communities, and with this in view, W. R. Nunnelle, Chairman of the Men's Club, has appointed the following gentlemen as delegates.

C. H. Bryan, L. T. Chiles, C. K. Oldham, J. Davis Reid, J. Will Clay, J. M. Bigstaff, Henry Watson, Joe M. Conroy, J. W. Hedden, Casswell Prewitt, John C. Wood, Harve Prewitt, Squire Turner, John W. M. Tindler, a well-known minister. Mayor Kennedy and Chief of Police Dunn are also on the injured list. This was one of the best school buildings in the State. The property loss is \$25,000. Insurance about \$12,000.

Everybody knows it is almost impossible to get shoes, these days, made from leather tanned after the old fashioned way. Yet there are some good shoes. We hunted the world over—we found very day shoes and Sunday shoes, in all styles for men and boys, plain calf, box calf, velour calf, kids, patent kids, patent colts, patent calf, high top, regular top, low cuts, that are still being made out of honest material. We thought it best to handle such goods at a small margin of profit rather than those with larger profit and less quality. We are happy to know our efforts have been appreciated. Our shoe department has more than doubled. We thank you, and shall still keep the efforts on foot. Guthrie Clothing Co.'s is the place for the best and latest in footwear for man or boy. 45 St

In an interview at Frankfort Judge James Hargis, of Breathitt county, denies that he ever objected to the sending of troops to Jackson or expressed the opinion that their presence was unnecessary.

WOOL ★ WOOL ★ WOOL

OUR GREAT \$10 SUITS ARE WOOL!

Nothing but Wool!

You can't get too much wool in clothing. It takes wool to retain its color; it takes wool to wear, brush and clean.

We pay more attention to \$10 Suits than any other price Suits sold by us, because we, many years ago, originated the

Great \$10.00 Suits!

Since then many have charged against our great leaders, but none have ever equalled them. The double and twisted wools in these garments, the hair cloth fronts, the concave lines, all go to make them equal to the \$25 so-called tailor-mades sold by other stores. If you will come here to-day or tomorrow you will find in our great \$10 line many \$11 and \$12.50 Suits from our round-up. By "round-up" we mean odd sizes and broken lots where only one or two suits remain. The smallest or largest man can be fitted here in our shape-retaining, all-wool suit from 33 to 44 for \$10.

Men who are broad-minded, who want value for their money instead of fawning, are coming here for their shoes. We sell Johnson & Murphy's high class, high grade, stylish, good wearing, and shape-holding shoes. They are the best shoes in America. We say BEST, mind you, not "as good." Prices \$5 and \$6, no more, no less.

Eclipse \$3.50 Shoes in patents, Vics and Calf in high and low cuts, and the great W. L. Douglass \$3.00, and 2.50 shoes in stylish shapes. We are doing more men's high-class shoe business than any store in town.

You will find a satisfaction in trading here that other stores pretending to compete with us do not warrant.

Whether it be suit or shoe, shirt or Panama hat you will not pay more or less than your neighbor. The one price will prevail.

And again, if your purchase is not satisfactory you get your money back.

PANAMA and KNOX HATS.

When you read this paper we will have 10 dozen fine Panama Hats in our store ranging in price from \$5.00 to 7.50 and stopping with the famous Knox at \$10.

You can buy here and know that you are being treated right, and that you don't pay more or less for your hat than the next man in.

ECLIPSE SHIRTS.

200 Beautiful patterns in Eclipse Shirts at \$1.00 each. Eclipse Shirts are cut full through the body and come with cuff attached or detached as you would have them. Eclipse Shirts equal any \$1.50 shirts sold by other stores. Here for \$1.00 your choice.

Princely and Emperor Shirts in bold and quiet patterns in light and dark shades. Big line to select from for 50 cents.

Breathitt Troubles Being Investigated.

Court convened at usual hour with Judge Rodwine on the bench and Prosecuting Attorney Bird ready for duty. Sheriff Callinan declined to act and was substituted by ex Sheriff Charles J. Little, a correct man and satisfactory to both the widow of Mr. Marcum and Mr. Hurst, his son-in-law. One juror, a kinsman, was asked to step aside and in his place was M. C. Bailey acceptable to both sides. Judge Rodwine insisted that the jury use every effort to bring before the court by indictments the murders of Mr. Marcum, Cockrell and Dr. Cox. A large crowd is attending court and no one is allowed in the court room without being searched for concealed weapons. The following compose the jury:

G. W. Whittaker, Wm. Spurlock, Shelton Combs, Crockett Riekey, Elijah Miller, Robert Cunniff, Edward McIntosh, Jack Creech, M. C. Bailey and Hiram Bryant. All are farmers except Bailey, who is a carpenter and lives in Jackson. Late Monday afternoon the grand

jury returned indictments against Curtis Jett and Tom White, charging them with the assassination of J. B. Marcum. Charles Little, who was appointed elisor at the opening of court, accompanied by a deputy and six members of the State militia, left Jackson Monday night for White's home, fifteen miles away, to place him under arrest. Another detail of militiamen went to Winchester Tuesday to conduct Curtis Jett to Jackson. Still another detail of troops was placed on guard Monday night at the home of Capt. B. J. Ewen, who is one of the principal witnesses against Jett and who asked for protection.

Grassy Lick.

The closing exercises of the Spring school at Grassy Lick were held in the Guilfoile tobacco barn on Wednesday evening of last week. It was an occasion greatly enjoyed by all of the large crowd present. The ladies of the Literary Society decorated the large stage and truly they made it a thing of beauty. The recitations, drills and tableaux by the children were all splendid. It is wonderful what control Miss Perkins has over the children. They went through the drills with the precision of trained soldiers. We heard an old Confederate Veteran say last year, after seeing the boys go through their military drill in their pretty uniforms, that he had seen soldiers that had been in the service for two years, who could not go through the manual at all as well as did these boys. The burlesque on a business meeting by the ladies was quite a hit and was heartily applauded. Where is the man who heard that, with cheek enough to say ladies can not conduct a business meeting with earnestness and dispatch? Miss Perkins has endeared herself to almost every one in the community. All hold her in high esteem as a lady and as a teacher. She has united and built up the school as hardly any one else could have done.

Fit and Style!

There are some things which can't be improved. One of these things is the "Queen Quality" Shoe for women. You can make it more elaborate, you can decorate it, embellish it, use costly materials and all that. But for \$3.00 a pair

You Cannot Make a Better Shoe

than "QUEEN QUALITY," having regard solely to the two great essentials of FIT and STYLE. This means that mechanically it is perfect. As for its appearance, the fact that one hundred thousand women choose it instantly above all other shoes would seem to indicate that it is attractive. Why don't you go as far as to try on a pair the next time you go to the store? It costs nothing to see them fit your foot.

DEATHS.

GOODPASTER.—Miss Bettie Goodpaster died at her home in the county on the 25th instant of pneumonia, aged 17 years.

HEINRICH.—Mr. Joseph Heinrich, of Lexington, father of Thomas Heinrich, of this city, died in Lexington, on May 15, and was buried in Covington. He was 84 years old.

BENT.—On last Thursday morning death came to Mrs. Laura M. Bent, wife of J. M. Bent, at the age of 56 years, caused from cancer. Mrs. Bent was a daughter of William and Malinda Mitchell and a sister of Mrs. Bruce Young.

Funeral service was held at the home on Elm street Friday afternoon, conducted by Rev. H. D. Clark, and her remains were taken to Lexington for burial. Mrs. Bent was a woman of strong native powers, of fine business capacity and for years was chief book keeper of the Farmers' National Bank.

She leaves a husband and two daughters, Mrs. Marcella Hoffman and Mrs. Bertie Grubbs, and a mother, Mrs. Malinda Mitchell. From early in life Mrs. Bent had been an active worker and consistent communicant of the Christian Church, identified with every department of work in the local church and deeply interested in the spread of the Gospel, giving liberally to State and foreign work, to the education of the masses and for the benefit of widows and orphans.

For years she lived with her father, and their home was noted for hospitality. Here the preacher rested and was cared for, and at one time we heard it said this family cared for one-tenth of the expenses of the Mt. Sterling Christian Church, which has more than 600 members. Mrs. Bent's life was one worthy to be imitated, for such add to beauty, happiness and justice. This good woman had her sorrows and bore them with Christian courage, not a murmur escaped her lips. She just toiled on firm in the faith that God would ever care for his own. The going out of such a life and character creates a void in the Christian world and can be supplied only by Him who converts the soul.

Decoration Day.

As the travel to the cemetery will be great, we suggest that, if the weather be fair and street dusty, the city arrange to have the street thoroughly sprinkled—at least from intersection of Queen and Main streets. Fire Discovered in Time.
Mrs. E. S. Apperson and daughter were to have returned from Florida on Tuesday night at 9:45. A coal oil stove had been lighted in Mrs. Apperson's room in the afternoon. Word came that they would arrive at 7 o'clock, so one of the family went to the residence to be ready to receive them. Imagine the surprise when it was ascertained that the stove had exploded and the floor, carpets, etc., were burning. The large mirror was broken from top to bottom, the glass in picture frames broken, furniture was blistered, curtains and other things spoiled, walls and ceiling black, and floor charred. A few moments delay would have resulted in the destruction of the old homestead, and the origin of fire might have been a mystery.

\$5.00
Many a man wants a neat Summer Suit for one season. We have it. Others want a plain good suit and haven't but \$5.00 to pay for it. We ask you to see us. Some don't care for style and want a bargain. We have it.

Singular Discovery—Rays of Light Emitted From Human Body Visible.

Rays of light emanating from the human body form the interesting scientific discovery announced as having been made by accident by Prof. Goodspeed of the Rand Morgan laboratory of physics of the University of Pennsylvania.

Divested of its technical terms, the discovery means that the rays of light shed from a living human body may have sufficient intensity although invisible to the human eye, to produce a picture on a plate properly sensitized and in a room pitch dark.

The discovery was made while X ray photographs were being taken. While an iron tripod stand, with a ring shaped top was being used, it was observed that the plate when exposed to the rays were affected by the ring below. Puzzled at this the operator attempted to discover the cause. In so doing one of his assistants placed his hand below the plate. The result was an imperfect radiogram of the bones of the human hand, like those obtained from the Roentgen rays when experimentation in that line was at its first stages.

Population of the Earth.

The population of the earth is about 1,600,000,000. About 900,000,000 worship idols. About 750,000,000 never heard of Christ, and never saw the face of a missionary. There is one preacher in America for about 700 people, while in the heathen lands there is one missionary for about 400,000 people. And yet men are wasting time and money, building needless meeting-houses, and supporting useless ministers and rivaling unscriptural church organizations, which cause skeptics as heathens to disbelieve the gospel, instead of seeking and praying and working for that unity which Christ prayed, "that the world may believe that thou hast sent me."

Tommy's Quick Answer.

"Tommy," said an uncle to his precocious nephew, "your mother tells me she has to give you pennies to be good. Do you think that is as things should be?"

"Of course it is," replied Tommy. "You certainly don't want me to grow up and be good for nothing, do you uncle?"—[Chums.]

A Case in Point.

The Court of Appeals has recently declined a case of interest to all cities. At Clinton several citizens refused or neglected to put down pavements ordered by the City Council. The city did the work and paid for it and the Circuit Court decided that the city had a valid lien on property for the cost, and this decision was applied by the Court of Appeals.

Sees First When Thirty Years Old.

A man thirty years old, blind from birth, had his sight restored recently by an operation for cataract at a Glasgow ophthalmic institution, which Dr. Rausay describes in the Lancet. The first thing the patient actually perceived was the face of the surgeon. At first he did not know what he saw, but the surgeon asked him to look down. The sense of hearing guided the eye straight to the source of the sound. The patient then realized this must be a mouth. The first time he saw yellow it made him sick. The first sight of red gave him pleasure.

Drum Shops as Lawful Churches.

"In Christian citizenship, a resolution shows how the resolver feels, a ballot shows where he stands." "Drum shops are as lawful as churches, and distilleries are as legitimate as public schools."—Joha G. Woolley. Yes, the star-spangled banner waves over the distillery, the brewery and the whiskey saloon, and protects them, as much as it does the schoolhouse, the church and the home, but it does not buy my vote. How about yours?

Mr. John Zelleis, City Auditor, residing at 731 Robert street, Newport, Ky., says: "A man who has never had backache or kidney complaint in any of its many forms can scarcely gauge the misery a sufferer endures who is annoyed day and night by this far too prevalent trouble. To all such my advice is procure Doan's Kidney Pills and take a course of the treatment. The result of the use of three boxes proved to me that the remedy is up to representations and deserves my unqualified indorsement."
